NOTE:

Adding "EMERGENCY CONTACTS"

should be given thought and consideration as to who you, the subscriber, would like to be informed when you are involved in an emergency situation.

Suggestion(s):

A friend, family member or neighbor who lives close by who would be able to respond to your need(s) before first responders
(FIRE, MEDICAL, POLICE)

Anyone you would like to know and who can be contacted to help **FIRST RESPONDER** personnel.

The image shows a mobile application screen titled "Add Emergency Contacts". At the top, the status bar shows the time 6:52, signal strength, Wi-Fi, and 98% battery. The app header includes a back arrow, the text "My Emergency Network", and a home icon. The form contains the following fields:

- Name***: A text input field containing "XXXXXXXXXX".
- Mobile***: A text input field containing "(222)-222-2222".
- Email***: A text input field containing "xxxxx@xxxxx.com".
- Relation**: A dropdown menu with "Friend" selected and a red triangle icon to its right.
- Choose one:** A small text label with the options "Caregiver, Family Member, Neighbor, Friend" listed below it.
- FullAddress**: A text input field containing "Not mentioned".

At the bottom of the form is a large red button labeled "Add".
